Projects:

CodeChef Panimalar Site

I have created a site for our chapter, in order to make our college students get to know more about it. Stack: Html, Css, Js, Bootstrap

My Personal Portfolio

I've created my personal portfolio by using HTML, CSS, and Javascript without the use of any frameworks.

Restaurant Webpage

I have created a restaurant website with bootstrap 4 UX and deployed at github.

Charity website

This is my sample project as part of my internship. This is the site using HTML, CSS, and bootstrap. This site also has another special feature where I have added a payment integration gateway where you could able to pay me via Razorpay.

And some open source projects
