Personal Profile

I'm Kumaran KM here.
I'm interested in
technology, innovation,
and development. I'm
passionate about
learning new stuffs. I'm
a self-motivated person
and need to be a learner
until my grave.

Educational Training

Panimalar Engineering College

Bachelor of Science in Computer
Science

- Enrolled since Aug. 2018 to
present
- Taking up specialization
courses in web development
to broaden skill set
- With CGPA 8.85/10

Career Summary

Content Writer

- Aashman Foundation
September 2020 to present
- Spirit of Youth Foundation
June 2020 to September 2020

Software Engineer Intern

- JPMorgan Chase & Co
May 2020

Data Analytics Intern

- KPMG service limited
May 2020

Projects:

Pygame(Hand Cricket)

I have created a hand cricket
game with a python console and
converted it into an executable
file. Just download that .exe file
and enjoy the game.

My Personal Portfolio

I've created my personal
portfolio by using HTML, CSS,
and Javascript without the use
of any external builtin tools.

Birthday Wishes

I have created a responsive
birthday greeting card. It will be
so amazing and interactive with
more animation. I would say this
will be the best gift that is given
online. Hop on into the given link
and just download the HTML
file.

Restaurant Webpage

I have created a restaurant
website with bootstrap 4 UX and
deployed at github.

And some mini projects
